## KNX LINE COUPLER SECURE N 140S11

# The Siemens KNX Line Coupler secure: A Multi-Talent for KNX Challenges

Rely on the Siemens KNX Line Coupler secure – your all-in-one solution for cyber secure building automation. It actively defends against cyber threats with KNX Data Secure. Its patented **Intelligent Programming Protection** is unique: Access to the KNX system is restricted to one direction, effectively cutting off any hacker from unauthorized entry. Plus, its ingenious Secure Proxy capability ensures flawless communication and managing both your secure and classical twisted pair KNX segments.

### Unique security feature **Intelligent Programming Protection**

- Separation of sensitive data areas by activating programming protection
- Perfect protection against manipulation of connected KNX devices

### High performance with the three-level function of the **Area, Line and Segment Coupler**

- Logical project segmentation following the structural layout of the building
- Reduced bus load by filtering group and broadcast traffic

### Expand your KNX classic installation with **KNX data secure**

- Smooth transition from KNX classic to KNX secure by using the Secure Proxy functionality
- Secure communication in sensitive data areas from day one

# Seamless Security Upgrade in an Existing KNX Building

Future-proof modernization of existing KNX Infrastructure

Renovating a sensitive area with enhanced security

Implement robust security in retrofit projects or separate building wings

## Product type overview

Product title	KNX Line Coupler secure N 140S11	
Order no.	5WG1140-1SB11	
Size (WU)	2	
Features	<ul style="list-style-type: none"><li>• Backbone coupler</li><li>• Line coupler</li><li>• Segment coupler</li><li>• Secure proxy</li></ul>	<ul style="list-style-type: none"><li>• Intelligent Programming Protection</li><li>• Harmonized design</li><li>• LED indication</li><li>• KNX Data secure</li><li>• EcoTech Label certified</li></ul>
