and Large [CAB3(R)-TK] Enclosure Backboxes

---

#### INTRODUCTION

The Models CAB1(R)-TK, CAB2(R)-TK and CAB3(R)-TK Trim Kits from Siemens Industry, Inc., are used to semi-flush mount CAB1(R), CAB2-BB(-RB) and CAB3-BB(-RB) enclosures, respectively. The CAB1-TK, CAB2-TK and CAB3-TK Trim Kits are black and the CAB1R-TK, CAB2R-TK and CAB3R-TK Trim Kits are red.

**CAB1(R)-TK, CAB2(R)-TK and CAB3(R)-TK Trim Kits is for indoor use only in dry environments.**

---

#### PRE-INSTALLATION

Determine the location where the CAB enclosure is to be mounted. Refer to the CAB1/CAB1R Installation Instructions, P/N 315-033007, or the CAB2-BB/CAB3-BB Installation Instructions, P/N 315-033009, as appropriate.

---

#### INSTALLATION

Refer to Figure 1 for a typical Trim Kit installation.

1. Cut the necessary hole in the wall for the CAB enclosure.
2. Fasten each trim piece to the backbox as shown in Figure 1. Using the screws provided, place the head of each screw inside the enclosure and fasten it to the trim piece with Pem nuts. CAB1 uses 8 screws. CAB2 and CAB3 each use 10 screws.
3. Secure the panel in the recess. Refer to the CAB1/CAB1R Installation Instructions, P/N 315-033007, or the CAB2-BB(-RB)/CAB3-BB(-RB) Installation Instructions, P/N 315-033009, as appropriate.

**The Trim Kit is designed so that steps 2 and 3 of this procedure can be reversed.**
